**Application:** For work in the area of live parts up to 1,000 V AC.

Ergonomic working – Recommended by doctors and therapists of the German Campaign for Healthier Backs

Wiha handle size concept - powerful and sensitive fastening

Safe operation up to 1,000 V AC

Fastening screws by hand causes considerable strain on wrists and muscles in the long term. The highly ergonomically shaped SoftFinish® screwdriver provides a remedy, ensuring optimal transmission of hand force. The different handle heights are always matched to the fastening. The long, slender handle heights can be used to fasten small screws quickly and firmly. There are also large-volume handle heights to fasten large screws which can be used to apply greater torques. The roll-off protection and screw symbol printed on the handle end ensure users work efficiently. Thanks to its optimum grip, the SoftFinish® screwdriver is particularly suitable for applications in dry environments. The position of the soft and hard zones on the handle also supports the perfect grip for quick and powerful turning. These insulated screwdrivers undergo routine individual piece testing as per the international IEC 60900 standard, thus providing users with a tool to work safely on live parts up to 1,000 V AC.

Manufactured acc. to IEC 60900.

Content:

- 1x Screwdriver SoftFinish® electric Hex nut driver 5.5 mm x 125 mm (00856)
- 1x Screwdriver SoftFinish® electric Hex nut driver 7.0 mm x 125 mm (00858)
