**Order no.:** 43895

**Article number:** 43895

**EAN:** 4010995438951

**Customs tariff number:** 82054000

**Simplifies your work:** Larger handle – maximum power.

**Lowers your costs:** 26 tools in one.

**Saves time:** Searching? Never again - the most common bits in one tool.

**Increases your efficiency:** 90% less volume, 85% less weight - 100% efficiency!

**Product dimensions:** 280 x 110 x 40 mm (LxWxD)

**Application:** The compact alternative to a set of screwdrivers.

Large handle – maximum power

Clearly arranged and easy to remove

13 double bits = 26 profiles

Saves 90% of space

The LiftUp 26one® magazine bit holder has 13 double bits: 12 in the magazine and 1 in the bit holder. Inside the bit holder, there is a two-row bit clip in a compartment design, which makes it easy to remove bits. Thanks to its narrow shape, the SuperSlim bit holder even provides access to screws in blind holes, for instance, where other, “thicker” bit holders have long failed. The sophisticated detail solutions offered by the LiftUp are certainly impressive – not to mention versatile. For example, the bit magazine on the handle end pops out at the touch of a button, ensuring bits are easy to remove. The soft zone of the ergonomically shaped SoftFinish® multi-component handle is made of skin-friendly special material. Coupled with its geometry that is easy on the hand and the large volume of the handle, it guarantees top torque values. Powerful screw fastening or loosening thus goes hand in hand. The LiftUp 26one® is only compatible with Wiha double bits.

Tool is compatible with Wiha double bits only.

Content:

- 1x Double bit, Slotted/Slotted 5,5/6,5
- 1x Double bit, slotted/ slotted 4,0/6,0
- 1x Double bit, Phillips/Phillips PH0/PH3
- 1x Double bit, Phillips/Phillips PH1/PH2
