Customs tariff number: 82041100

Simplifies your work: The ball end facilitates access to screws and allows you to work at an angle of up to 25°.

Makes handling easier: Sliding function for one-handed opening of the holder and simple, quick removal.

Lowers your costs: Highly durable thanks to high-quality, chrome-plated L-key surface to prevent corrosion.

Product dimensions: 231 x 80 x 26 mm (LxWxD)

Application: Suitable for fastening and loosening hex screws in difficult-to-access spots.

Quick removal: pushing, tilting, removal

High-quality chrome-plated surface

Perfect for confined spaces thanks to ball end

Keeping many different L-keys safe and organized to prevent loss can be awkward and annoying. The ProStar holder from Wiha has changed all that. Simply pushing the holder open grants free access to the L-keys that can be quickly removed through a tilting mechanism. A clamping mechanism in the holder makes sure that the keys cannot fall out, regardless of whether the holder is open or closed. The set contains nine hex L-keys in standard sizes. The matt chrome-plated chrome vanadium steel guarantees robustness and a long service life. The L-key set can be hung up directly at the workplace using the suspension bracket on the holder.

Based on ISO 2936L.
