Simplifies your work: All tools securely arranged in a robust, orderly bag.

Protects your health: With the patented SoftFinish® handle design, ensuring work is kind to hands and muscles. Recommended by doctors and therapists at German Campaign for Healthier Backs.

Makes handling easier: Easy operation of the locking and unlocking button.

Product dimensions: 260 x 40 x 40 mm (LxWxD)

Application: Variably adjustable blade length for flexible application options, e.g. for fastening low-lying screws in electronic components.

Variably adjustable blade length (42 - 114 mm)

Extensive, exchangeable blade range

Ergonomic working – Recommended by doctors and therapists of the German Campaign for Healthier Backs

Practical and robust roll-up bag

A standard-length blade is unable to reach low-lying screws in blind holes. The SYSTEM 6 set provides a remedy for such screws – a versatile, space-saving interchangeable tool. Thanks to the SYSTEM 6 interchangeable blades, the required blade profile can be quickly and easily inserted and the blade length fixed to requirements. SYSTEM 6 interchangeable blades can reach lengths between 42 and 114 mm. The SYSTEM 6 handle is compatible with all Wiha SYSTEM 6 interchangeable blades (series 284). The click-stop ball clamp guarantees a secure hold for blades. The ergonomically shaped SoftFinish® handle is also recommended by doctors and therapists. The robust roll-up bag ensures tools are neatly packed away, saving space.
